

August 29, 2009

Dear Parents,

The test results from the child that tested positive for the Influenza A Virus on Wednesday has also come back positive for the H1N1 virus. This result was just made known to the family this Friday evening and communicated to me. The child is a member of Monet Class in K1. She is in the hospital and being monitored carefully. We all are hoping for a speedy recovery. ECLC will open as planned on Thursday morning, September 3.

Regards,
Andy
